

18 β -selinene can be isolated from plant material.

β -selinene

When β -selinene reacts completely with HBr, the product mixture contains different compounds, all with the same molecular formula.

Which row identifies the molecular formula of the products and the number of these products which are tertiary bromoalkanes?

	molecular formula of the products	number of products which are tertiary bromoalkanes
A	$C_{15}H_{24}Br_2$	2
B	$C_{15}H_{24}Br_2$	3
C	$C_{15}H_{26}Br_2$	2
D	$C_{15}H_{26}Br_2$	3
