

25 The structures of mandelic acid and saligenin are shown.

mandelic acid

saligenin

With how many moles of sodium does one mole of mandelic acid react and with how many moles of aqueous sodium hydroxide does one mole of saligenin react?

	mandelic acid + Na(s)	saligenin + NaOH(aq)
A	1	0
B	1	1
C	2	0
D	2	1
