

28 Which statements about an H_2/O_2 fuel cell are correct?

- 1 The reactions in the cell produce no environmentally harmful products.
- 2 The fuel cell is very efficient because the majority of the chemical energy is converted directly to electrical energy.
- 3 At one of the cell electrodes, hydrogen molecules release electrons by forming hydrogen ions.

A 1, 2 and 3 **B** 1 and 2 only **C** 2 and 3 only **D** 3 only
