

- 8 Which description of Dalton's Law is correct?
- A Equal volumes of gases at the same temperature and pressure contain equal numbers of molecules.
 - B The partial pressure of a gas in a mixture is given by the product of its mole fraction and the total pressure.
 - C The partial pressure of a gas in a mixture is given by the product of its percent by mass and the total pressure.
 - D The total pressure of a mixture of gases is equal to the sum of the partial pressures of those gases.
